Summary:

Wright State University graduate with an ABET-accredited degree in Mechanical Engineering. Excited and looking forward to utilizing my current knowledge and to develop new business and engineering skills.

Skills:

- Autodesk Inventor • SolidWorks • MATLAB • LabVIEW
- JavaScript • SQL • HTML • CSS • GitHub • Figma
- Leadership • Problem Solving • Communication • Adaptability • Creative Thinking

Professional Experience:

AGC Automotive | Senior Team Lead

SEPTEMBER 2021 - MAY 2022

- Led a team of 11 of associates during first shift. Responsible for quality of finished products to ensure it meets OE specifications for both OE and aftermarket customers.
- Tested, documented, and presented new model introduction for several windshields.
- Worked on reverse engineering the ADAS brackets and template designs to be within spec for production.
- Set up materials needed for each day's shift, provided support to engineering team including: Conduct inspections to ensure quality of products, report defects, and take appropriate action to correct defects.
- Managed inventory of ~\$500k for both buildings, communicated with supply chain when materials are needed or cycle counted.
- Created standardized work procedures and trained employees on the process.
- Inspired associates and material handlers on a daily basis to maintain a workplace focused on: safety, quality, and efficiency.
- Worked closely with production coordinator to create and implement the schedule for the day.

AGC Automotive | Production Support

JANUARY 2021 - SEPTEMBER 2021

ABF Freight | Casual Checker

JANUARY 2019 - JANUARY 2021

- Consistently exceeded expectations for hourly productivity of loading and unloading various freight.
- Reduced average freight claims by over 20% with accurate and detailed documentation while ensuring items are safe for transit.
- Collaborated with team members to strategize plans for optimal loading capacity.

Columbus Zoo & Aquarium | Seasonal Warehouse Associate

JUNE 2015 - AUGUST 2019

- Assisted in developing and implementing an improved warehouse layout to maximize inventory management.
- Managed inventory levels and replenishment for gift shops, food plazas, and special events.
- Mentored and trained new associates.

Education:

Wright State University

May 2020

Bachelor of Science
Concentration: Mechanical Engineering
